

RE-EVALUATING YOUR HAND

East bids and passes. What is your call?

S	South
♠	Q109732
♥	K
♦	AJ1064
♣	K

Although you have 13 HCP, your singleton kings aren't worth the 3 points you had initially given them. Your spade suit is missing the top 3 honors. These are all negatives but you do have six spades and a very shapely hand. There is a saying that goes with 6-5 hands: "Six five come alive." It's not the strength but the shape that makes this hand good. It is certainly worth a 1♠ opening.

West passes and your partner raises you to 2♠. East passes and it's back to you. His single raise promises 6-10 points and 3 spades. There are valid arguments for passing. Your kings are potentially worthless and your partner may not have any of the missing honors.

There is also a case for inviting your partner to game; either by raising to 3♠ (asking for spade honors) or rebidding 2♦ (asking for help in diamonds.) If North is near the top of his range and/or he has a fit for your diamonds, he would accept and rebid 4♠.

When I played this hand, I took a third approach. I jumped to 4♠! Knowing we had a 9-card trump fit added a point. A good 5-card side suit added another point. Finally, holding two singletons added 4 points. I really didn't need much from partner's hand and I didn't want to miss a game if he couldn't appreciate the special shape of my hand.

West leads the ♥10 and your partner tables this hand:

N	North
♠	K85
♥	QJ873
♦	Q93
♣	QJ

West leads ♥10

S	South
♠	Q109732
♥	K
♦	AJ1064
♣	K

Even though North has 10 HCP, 5 queens and jacks and no aces make the hand worth less. He probably wouldn't have accepted my invitation to game.

East plays his ♥A, felling your ♥K. Knowing you started with a stiff heart, East switched to clubs. West captures your ♣K and returns a heart. You win your ♥J and start pulling trump. Since you only have the ♠KQ, you need spades to break 2-2. It is essential to play the ♠K first. You must leave the ♠Q in your hand should West win the ♠A and return a heart that East could ruff with ♠J. That is exactly what happens but you over ruff with the ♠Q and take all the remaining tricks. You pull the last trump, ending in the dummy and successfully finesses against the ♦K in East's hand.

This is the entire deal:

10 ^D	N North	W	N	E	S
	♠ K85 ♥ QJ873 ♦ Q93 ♣ QJ	P	2♠	P	1♠
W West		P	P	P	4♠
♠ A6 ♥ 109542 ♦ 52 ♣ A1085		E East			
	S South	♠ J4 ♥ A6 ♦ K87 ♣ 976432			
	♠ Q109732 ♥ K ♦ AJ1064 ♣ K			4♠ S NS: 0 EW: 0
