

## KEEP RE-EVALUATING

North is the dealer and opens 1♣. He has 13 HCP but his honor doubleton in diamonds doesn't have much value. Likewise, his J♣ has dubious potential. However, it's better to open marginal hands like this than pass and let the opponents have a clear field.

You are South and respond 1♥. You have 11 HCP but 4 of your points are in short suits where they don't help to develop tricks or even take tricks in their own right. Your partner raises to 2♥, showing minimum opening hand of 12-15 HCP. Should you pass or bid on?

North  
♠AQ105  
♥A1087  
♦Q9  
♣J72

South  
♠J2  
♥KJ96532  
♦K  
♣K103

After your partner supports your hearts your hand improves significantly. You have a known 10-card trump fit, which could even be as much as 11 cards if partner supported with 4 hearts. Now your short suits are positives rather than the negatives you originally counted them for. I'd say the hand was worth about 16 points. You want to be in a heart game so you should simply raise to 4♥ which becomes the final contract.

West leads the ♣9 won by East's ♣A. East returns the ♣4. What is your plan?

First count your losers. You have 1 spade loser, no heart losers, 1 diamond loser and 2 potential club losers, given East's play on trick one. You must eliminate one of these losers.

There is a potential spade finesse which holds a 50% chance of success. Is there anything better?

Notice that you have a ♦Q in the dummy on which you can discard the losing spade. That's nearly 100%. The other thing you should have noticed was the opening lead. Do you think it was 4<sup>th</sup> down from a long club suit? Hardly. There are only 5 cards higher than the nine and you have 3 of them. The 4<sup>th</sup> higher card was just shown in the East hand. Therefore, the ♣9 must have been from the "top of nothing" or from a singleton. Either way, you don't want to put your ♣K on East's ♣4. Either the ♣10 will win the trick or your ♣10 will be ruffed.

You insert the ♣10 and West follows suit with the ♣8. Now it's just a matter of pulling the two outstanding trump and setting up the ♦Q for your spade discard. You will take 1 spade, 7 hearts, 1 diamond and 2 clubs; 11 tricks in total.

This is the complete board:

D 1		<b>N North</b> ♠ AQ105 ♥ A1087 ♦ Q9 ♣ J72	<table border="1"> <tr><td>W</td><td>N</td><td>E</td><td>S</td></tr> <tr><td></td><td>1♠</td><td>P</td><td>1♥</td></tr> <tr><td>P</td><td>2♥</td><td>P</td><td>4♥</td></tr> <tr><td>P</td><td>P</td><td>P</td><td></td></tr> </table>	W	N	E	S		1♠	P	1♥	P	2♥	P	4♥	P	P	P	
W	N	E	S																
	1♠	P	1♥																
P	2♥	P	4♥																
P	P	P																	
	<b>W West</b> ♠ 8743 ♥ Q ♦ J86432 ♣ 98		<b>E East</b> ♠ K96 ♥ 4 ♦ A1075 ♣ AQ654																
		<b>S South</b> ♠ J2 ♥ KJ96532 ♦ K ♣ K103	4♥ S    NS: 0 EW: 0																

Notice there were only 24 HCP between the two hands. If you had relied only on counting high card points, you would have passed your partner's 2♥ raise and missed this 11-trick game.
